 - Sub district we can have in person competitions
 - Districts may change based on sub district schedules.

- CDE Schedule Changes?: Unknown from the State CTE team, the goal is to not postpone unless there is a dire need. What the schedule is will most likely stay what it is. By spring if there is a change in districts/administrators and more in person competitions, there may be a chance to have in person events as hosted by the state if the opportunity arises.
- Forestry changing from online/in person? (If the district goes online for CDEs, how do we keep it secure?)
 - Ryan: working with testing vendors to work with security issues. However the sub/district chooses to run it is up to us. No requirement to use the online testing system, but are welcome to use what the state uses. Advisory committee will

meet and look for new outlines for events based on various schedules.
Elimination rules? - no known answer if there is an elimination for online formats.
Can the state give us options for hosting the district tests? - work with Q Bank,
but don't know there is a subscription for district use at the time. Timber
Cruising? - how we teach students the core concepts (with or without multiple
choice).

- Contest in a box? - Ryan mentioned this is similar to skillathon kits.
Districts develop a "contest in a box" where students can complete the
contest and turn in the results.
