The chapter will be offering the following types of mulch:

		
<p>Absolute Black Mulch is a color-enhanced substitute for hardwood mulch. This shredded mulch product has been colored with a vivid, long-lasting black color.</p>	<p>Absolute Red Mulch is a color-enhanced substitute for cypress mulch. A long-lasting, vibrant red iron oxide has been added to the mulch.</p>	<p>Premium Dark Hardwood Mulch is a processed product that is dark in color with a natural appearance. Because of its color, it tends to accent most plants better than some of the lighter colored mulches. This mulch will decompose and break down, acting as a natural soil conditioner.</p>
		<p>Delivery will begin in late March and will continue through the end of April. All Mulch orders must be PREPAID.</p>
<p>Pine Bark Nugget Mulch is composed of nugget-sized pieces of pine bark, approximately 2-1/2 inches in diameter and brownish in color. This mulch is good for acid-loving plants, trees and bushes.</p>	<p>Estate Cypress Mulch is light in color with a slight red or orange cast. Cypress mulch is long-lasting, and is slow to break down or decompose.</p>	<p>Any FFA member can take your order. When you place an order, you should EXPECT AND REQUIRE a receipt from the FFA member.</p>

Checks can be made payable to the Amanda-Clearcreek FFA
